PREMIUM GENERATORS

Advanced generator technology and features, quality materials and construction, and more than 3 decades of doing things right add up to power that's there when you need it.

EF2600

- 2600 watts / 21.7 amps
- Large fuel tank for up to 9 hours of continuous operation
- Brushless alternator is maintenance-free and reliable

EF5200DE

- 5200 watts / 43.3 amps @ 120 volts & 21.7 amps @ 240 volts
- Dual voltage provides the versatility of 120 and 240-volt operation
- Brushless alternator provides low maintenance and years of worry-free service

EF6600DE

- 6600 watts / 55 amps @ 120 volts & 27.5 amps @ 240 volts
- Dual voltage provides the versatility of 120 and 240-volt operation
- Economy idle control improves fuel efficiency

When purchasing a generator, it's important that you select one that's capable of meeting your energy requirements. You need to match the rated output of the generator to the maximum anticipated power to be used. See the chart below for a general guideline. Please visit the Generator Tips & Links section at yamaha-motor.ca for a more detailed explanation on calculating your energy needs.

	Jigsaw	Circular Saw	Table Saw	Chain Saw	Disc Grinder	Electric Weed Trimmer	Power Hand Drill	Electric Welder (100 Amps)	Shop Vacuum	Air Compressor (1/2 Horsepower)	Air Compressor (1 Horsepower)	Air Compressor (1 1/2 Horsepower)	Refrigerator or Freezer	Sump Pump (1/2 horsepower)	Electric Range Oven
Approx. Running Wattage	300	800 1800	1500 1800	900	2000	500	350 600	3600	900	1000	1500	2200	700	1050	2100
Approx. Starting Wattage	450	1200 3000	3000 4500	1200	4000	800	350 600	3600	900	2000	4500	6000	2200	2050	2100

Values are estimated for reference only, check your equipment or appliance for actual power requirements.

Do not connect any generator to any building's electrical system unless an isolation switch has been installed by a licensed electrician and all connections comply with all applicable laws and codes.

INVERTER GENERATORS

Yamaha inverter generators are next-generation portables featuring a microcomputer-controlled inverter system. This technology sets the new standards in compact lightweight portability, quiet operation and Pulse Width Modulation system provides a cleaner, higher-quality electrical current.

FACTORY
WARRANTY*

EF2000iS Inverter

- 2000 watts / 16.7 amps
- Ultra light weight at 20 kg (44 lb)
- Compact suitcase-style design
- Whisper quiet operation
- Pulse Width Modulation system

EF3000iSE Inverter

- 3000 watts / 25 amps
- Effortless electric starting
- Up to 20.5 hours of continuous operation

EF3000iSEB Inverter

All the same great features of the EF3000iSE plus Yamaha's Boost Technology for when you need a boost of extra power.

EF4500iSE Inverter

- 4500 watts / 37.5 amps
- Designed for maximum fuel efficiency and minimum noise, qualities which make it the ultimate RV accessory.

EF6300iSDE Inverter

- 6300 watts / 52.5 amps
- Dual voltage provides the versatility of 120 and 240-volt operation
- Twin bar design and large castor wheels for ease of manoeuvrability
- Up to 13.3 hours of continuous operation

SNOWBLOWERS

Now Back in Canada! Like Yamaha, our snowblowers are known for their incredible performance and unbeatable durability. It's been 15 years since we took our hiatus from the Canadian market and hundreds of these machines are still in service today. We heeded the calls from our loyal fan base (check out the online forums) and we're back bigger and better than ever.

YT624EDJ Snowblower

YS928J Snowblower

YT1232ED Snowblower

WATER PUMPS

Yamaha water pumps are powered by 4-stroke OHV air-cooled engines, which are smaller, more powerful and consume less fuel than comparable engines. Excellent for pool maintenance, garden irrigation and multiple jobs around the cottage.

YP20GY water pump

- Cast-iron impeller for long life, and heavy-duty carbon-ceramic seals for greater durability and reduced abrasion
- Recoil start with auto decompression
- Standard N.P.T. fittings ensure easy hose connections
- Electronic ignition for easy starting

2" Hose Kit for YP20GY

(includes suction and discharge hoses, coupler and strainer)
WTR-PUMP2-IN-KT \$212.95

† Limited time offer. Prices are in effect until June 30, 2010, while supplies last. Applicable taxes, transportation and dealer preparation are extra. Dealer may sell for less. All prices are subject to change without notice. * 3-year limited warranty on all generators for personal or commercial use (except EF1000IS, 2-year for commercial). Water pumps receive 3-year warranty for personal use and one-year for commercial. See your dealer for details.

Due to Yamaha's ongoing commitment to product development, features and specifications may be subject to change without notice. Models used herein are not exactly as shown. Yamaha recommends that you read your owner's manual completely before operating your generator. To ensure optimum performance, check the maximum wattage output of the generator selected against the maximum wattage requirement of the tool or appliance to be used. For the most up-to-date product information, visit your local Yamaha dealer.
